IMPORTANT NOTICE
LIST OF NON ELIGIBLE LOCATIONS
The list below is drawn up for the purpose of determining whether products may be eligible for preferential tariff treatment under the EU-Israel Association Agreement(1). Such treatment will be refused to products for which the proof of origin indicates that the production conferring originating status has taken place in a locality within the territories brought under Israeli administration since June 1967.
(1): See notice to importers published in the Official Journal of the European Union No C 232 of 3/8/2012.

	<p>The names of the localities appearing in this column have been converted from the Hebrew alphabet into the Latin one with all possible care but their transliteration has no legal value. They are thus of an indicative nature and only given in order to facilitate the clear designation of the locality indicated by the exporter as "the place where production conferring originating status to the product has taken place".</p>
